1. Local food
2. Access to food – food poverty
3. Education
4. Food Waste

After the public consultation

Food Council 2.0

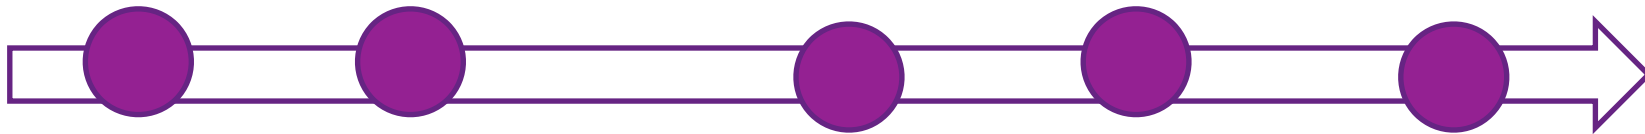

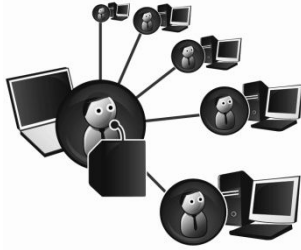

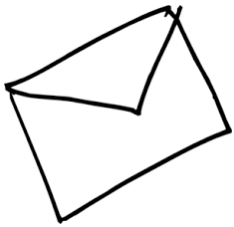

The Town Meeting has been an important moment of our journey, a sort of city council on food that met, discussed and provided guidance to the local authorities. From July on the debate will continue online in a virtual space of permanent dialogue among citizens about existing projects and on issues of potential interest to the food policy.
